

GB4 24

The GB4-24 is 24-channel, 4-bus mixing console designed and constructed to ensure rugged reliability under stressful tour conditions. All input modules have individual vertically-mounted PCB's fitted to the steel chassis.

- 24-channel frame size
- GB30 mic preamps
- Precision equalization circuitry
- Direct outputs on every channel
- Talkback facility
- 100mm faders
- Switchable 48V phantom powering on every channel
- 18dB/octave high-pass filter
- 18dB/octave high-pass filter
- 4 mute groups
- 12-segment LED metering
- Record output with limiter
- 2 full-feature stereo channels
- 2 stereo returns
- 8 aux sends (4 are pre/post switchable)
- 4 sub groups (SWAP with Auxes 1-4)
- 7x4 output matrix

Typical live mixer set up

The GB4 offers a comprehensive set of functions and facilities in a small and effective footprint, and delivers the high performance and reliability you would expect from a Soundcraft product.
